FACTS ABOUT TRANSPLANTATION IN THE UNITED STATES

On July 12, 2019, the OPTN National patient waiting list for organ transplant includes the following:

Registrations				Patients					
_		Active		Total			Active		Total
Waiting for <i>kidney</i>	•	65,312	•	103,023	Waiting for <i>kidney</i>	•	60,151	•	94,823
Waiting for <i>liver</i>	•	10,483	•	13,413	Waiting for <i>liver</i>	•	10,311	•	13,161
Waiting for pancreas	•	202	•	829	Waiting for pancreas	•	198	•	820
Waiting for pancreas islet cell	•	7	•	76	Waiting for pancreas islet cell	•	7	•	76
Waiting for kidney-pancreas	•	846	•	1,692	Waiting for kidney-pancreas	•	816	•	1,639
Waiting for intestine	•	148	•	231	Waiting for intestine	•	148		231
Waiting for <i>heart</i>	•	2,976	•	3,826	Waiting for <i>heart</i>	•	2,947	•	3,788
Waiting for <i>heart-lung</i>	•	36	•	47	Waiting for heart-lung	•	36	•	47
Waiting for <i>lung</i>	•	1,234	•	1,442	Waiting for <i>lung</i>	•	1,222	•	1,427
Waiting for VCA	•	24		24	Waiting for VCA	•	24		24
TOTAL REGISTRATIONS	•	81,268	•	124,603	TOTAL PATIENTS*	•	74,240	•	113,398

NOTE: This table shows the total number of registered candidates on the waiting list, as well as the current number of active candidates eligible to be considered for organ offers. Some transplant candidates are temporarily classified as "inactive" by their transplant center because they are medically unsuitable for transplantation or need to complete other eligibility requirements. OPTN/UNOS policies allow patients to be listed with more than one transplant center (multiple-listing), and thus the number of registrations is greater than the actual number of patients. If a candidate is actively listed at one center and inactively listed at another, only the active listing will be tallied with regards to the unique patient counts (not counted as an inactive patient).

^{*} Some patients are waiting for more than one organ, therefore the total number of patients is less than the sum of patients waiting for each organ.

Numbers of	of Transplants Performed, 2018**		Nur	mbe
• 21,1	67 kidney (no pancreas) transplants	(6,442 living donors).	•	1
• 8,2	50 liver transplants.		•	
• 1	91 pancreas (no kidney) transplants		•	1
. 8	36 kidney-pancreas transplants.			
• 1	04 intestine transplants.			
• 3,4	08 heart transplants.			
•	32 heart-lung transplants.			
• 2,5				
•	11 VCA transplants.			
• 36,5	29 TOTAL			

Number of Donors Recovered, 2018**

- **10,721** Deceased
- **6,847** Living
- 17,568 TOTAL

During 2018, 5,415 patients were removed from the OPTN National patient waiting list for reason of death.**

** Based on OPTN data as of July 12, 2019. Double kidney, double lung and heart-lung transplants are counted as one transplant. NOTE: Data subject to change due to future data submission or correction.

As of July 12, 2019, OPTN membership included the following:

- 253 Transplant Centers
- **5** Business Members
- 58 Operating Organ Procurement Organizations (OPOs)
- 148 Histocompatibility Laboratories
- 7 General Public Members
- 14 Medical/Scientific Organizations
- 8 Individual
- 390 TOTAL*

As of July 12, 2019, 253 medical institutions in the United States operate an organ transplant program.

These transplant centers can be separated into organ specific programs that include the following active programs:

- 237 Kidney Transplant Programs
- 147 Liver Transplant Programs
- 134 Pancreas Transplant Programs
- 20 Pancreas Islet Cell Transplant Programs
- 20 Intestine Transplant Programs
- 140 Heart Transplant Programs
- 71 Lung Transplant Programs
- 27 VCA Transplant Programs
- 796 TOTAL

Kidney Paired Donation (KPD) Statistics as of July 12, 2019

Participants: In the week of July 8, 2019 there were 167 candidates included in the OPTN KPD matching algorithm.

Transplants: During 2018, there were 38 transplants performed in the OPTN KPD program and 933 living donor kidney transplants performed in the U.S. reported as paired donations.

^{*} There are 7 OPTN members that operate both transplant centers and in-house OPOs and 96 that operate both transplant centers and in-house histocompatibility laboratories. These members are included in both the count of transplant centers and operating OPOs. For this reason, the total number of members is less than the sum of the different categories.
